

SECURE YOUR LOAD

Keep Vista Beautiful

Trash/litter can escape or fly out of a truck bed and trailer. When hauling materials, help reduce roadside litter and increase safety:

- Cover loads with tarps or cargo nets
- Don't overload your truck
- Put lighter items lower
- Remove loose material or trash in the trailer or truck bed
- Use rope, netting, or straps to secure cargo safely when transporting large items

Always double check your load is secure!
